Student Letter

My name is Irene, which in Greek means "peace" and I find it suits me, in fact, I am cheerful, calm and I rarely get angry. I really love animals. In fact I have been riding horses since I was little and it is one of my biggest passions. I have also practiced dance for some years, and I'm really interested in music but I don't play any instruments at the moment, even if I would like to learn to play something in the future. I sometimes take some singing lessons but nothing more. In my free time I like to go out with my friends and to go for walks in the countryside or around the city. Even if it's not really a "hobby" I like going to the beach and it's one of my favourite places. I'm very curious and I can't wait to see new places and discover new things. I'm applying to study in America because I would love to experience school in another country. Furthermore, I would like to meet new people and get out of my comfort zone, to explore and to experience many new and different things. I can't wait to meet you in person, take care of yourself.
