## Student Letter

First I want to say thank you, that you are thinking about me as your future exchange student and want me to be a part of your family for about 10 month. Obviously I don't know anything about you yet, but I am already very excited to meet you soon. My name is Javhis. I am sixteen years old and I live in a city in the north of Germany. In the afternoon I sometimes meet with my friends to play soccer or video games. On Monday, Tuesday and Friday I have soccer training and on the weekend I usually play a game. I also sometimes go jogging through the park behind our house. On weekends I usually do something with my mother and we go for a walk or a bike ride. On weekends I usually meet up with my friends to play basketball or volleyball. Once a month I have dinner with my relatives and discuss what happened in the past. I am already really excited about how school is in the USA and which subjects I am going to be able to choose. I really love sports, so I have played for 6 years in a soccer club. I also like to play basketball and volleyball in my free time with my friends. I also like to play the piano at school for fun and I played the violin for 3 years.

I am already really excited to be a part of your family and to experience some typical traditions like Thanksgiving or Halloween. With this huge opportunity I got the chance to make my dream come true, learn something about your culture, English and more things. I am looking forward to meeting you.
