Student Letter

I'm Stanislas, I'm 16 years old and I live in France. I decided to embark on this adventure to discover life in the United States. Beyond learning English, I want to discover a new culture. I also want to discover your mentality which is different from that in France. At your side, I look forward to you making me discover the real life in the U.S.A, your traditions (like Thanksgiving...). I would like to integrate into your family life, and your customs.

I practice horse riding, I love aeronautics. Later I would like to be an airplane pilot. I love travelling, sunbathing, and enjoying life. Also I love pets. At school, I like scientific subjects such as mathematics, biology and physical chemistry. I love to laugh a lot. I think I'm a mature, funny person. I adapt very easily to others and to a new environment. I am curious and love to discover everything, especially new food! Also, when I will be in the United States, it is a bit like a dream, I would like to see a real rocket take off if it is possible. See you soon!
