Student Letter

My name is Ignacio. Thank you very much that you give me the possibility to live in your family and to get to know the life in your country. I live in Spain. I get along great with my siblings. We like playing games, bike riding, playing table games and like watching the same TV series. I like staying with friends, playing games and doing sports. This summer I will continue with the paddle-tennis lessons , I also like playing basketball with friends. My favorite subjects are Maths and Physics, I would like to study to become a technology engineer at University. I am Catholic. We go to mass all Sundays.

I love to go skiing with my family. I also like visiting new countries, tasting other meals, and getting to know people with different cultures. If you ask about my character I think I am happy, smiling all time and confident. I can't wait to meet you!
