Student Letter

My name is Giulia and I'm a teenager living in the northern part of Italy. I'm 17 and my family is composed by my mother, my father, my older sister and a lovely Persian cat. I'm now attending a High School specialized in foreign languages. I'd like to work and live abroad, maybe as an interpreter or in the television field, as a journalist. I think that's because I love playing with words, writing and discovering new ones reading.

The sport I practice is tennis. I usually train with my parents, because my father is a tennis teacher and my mother plays it too, since she was a child. Apart from that, I enjoy every kind of open-air activity, such as hiking, cycling or roller skating.

Every summer since 2016, I always spend ten days with my friends in the mountains camping. Speaking of my friends. Living in a small town leads me to have friends I know since I was a little child. I love hanging out and spending some time with them and going to the park or simply walking around the city eating an ice cream.

One of my biggest passion is traveling, in fact I loving exploring new places, discovering new cultures and new people. I believe the contact with other people around the world could help a lot of people fighting stereotypes and bad ideas.

I've always wanted to live an experience I'll live abroad. I think that this kind of experience will help me not only improving the level of my English, but also with some aspects of my character. I can't wait to be there!
