Student Letter

Hi my name is Martina, I am 16 years old, I live in Italy with my family and I attend the artistic high school. I am a simple girl, I like classic things like music, listening to it, singing it and playing it, I used to take piano lessons but now I play it as a hobby; I like shopping a lot... I never have enough clothes, then I like to cook, especially the sweets that I have a sweet tooth and watch TV series! I love going out and spending time with my friends, going to the river or having a bonfire in the summer, just eating a pizza at home in the evening or wear cool clothes to go out.

I have a nice family, I live with my parents with which I get along well with some ups and downs; my father has a nice character and is one of the best people I know. Grandparents are among my greatest loves, I am very attached to them I think they will be among the people who I will miss them more.

America has always fascinated me, both for the fantastic places that there are, and for how life is structured, but precisely the culture in all its forms, every details such as classic houses, school lockers, fast food restaurants, it seems to me a world completely different from the Italian one, a world that intrigues me a lot and in which I would like to live even for only six months, more I think it would be an experience that could give me a lot. I would like to try many activities, sports, subjects, I think it can improve me in every scope, I think it will be a fantastic experience.
