Student Letter

My name is Erika, I'm 16 years old and i live in a small city in the north of Italy. I'm really excited to write this letter for you, I can't believe it! I attend language high school, I like to study languages a lot, like French and German. I love English and there in America, I would improve it in a huge way! I'm very active and in my free time I can't stay without doing anything. I love going to the gym and walking with friends around the city or in the countryside. My favorite hobby is cooking. I like cooking cakes and also Italian food, it would be great to cook Italian food for you! I listen to music at any time and I like to dance even if I'm not very good. I usually go out with friends on the weekend, I always have fun with them even if we stay home with pizza and music. One of my passions is traveling. I love visiting new places and trying new experiences with family or friends.

I wish I'll feel part of your family and you'll be proud of me as your daughter, as I would like that this experience won't be just great for me, but also for you. See you soon!
