18

**Duration:**  
Semester

**Student ID:**  
SM21BO01-12

**Allergies/Special Diet:**  
No / No

**Religion:**  
Christian

## Student Letter

My name is Leandro, I am an 18-year-old boy from Bolivia. I currently live with my mother and our dog Artur, whom we love very much.

I live with my mother, and my loving dog Artur, we have a wonderful relationship. I help her at home with errands and chores, we cook together and also spend time watching movies. Even though my parents don't live together, I try to always spend time with my brothers so that we can watch movies, hang out, or just catch up.

Once I finish attending the Exchange program, I would like to study Nutrition. I have been sharing this idea with my parents and they feel that going to North America will be a good choice. My two brothers are in the Medical School, but in my case I prefer to become a Nutritionist and help people to prevent conditions by guiding them in their way of living.

I believe that living with an American family is important to me because I will learn about life there. It is very different from here, absolutely different. I want to be able to learn to adjust in different environments, not just in my home country of Bolivia.

I am someone who is curious about many subjects. I love animals, I love hanging out with my friends. I am someone who is positive and optimistic. I hope to be able to share my life and my experiences with you. Thank you so much for reading my thoughts and my story, and I hope that I can be part of yours. ~ Leandro
