Student Letter

My name is Franco. I was born in Bolivia and I am a 17 year old and a student at the Montessori school. I would like to thank you for reading my letter that includes my story and a bit about myself. We live in an apartment, near the white cable car station. It is my favorite means of transportation because you can contemplate the beauty of the city on the trip.

I have friends who are so diverse and so eccentric that if I brought them all together in one room, it would be a circus. My family is affectionate and friendly. I respect and cherish them a lot because they are the ones who supported me in the most difficult moments, and helped me not to deviate from the right path. For that I am eternally grateful.

I like everything from music and art to science and technology. I have taken courses in many subjects. I think that in life it is necessary because in such a globalized and constantly evolving world, learning from everything helps one not get left behind from so much progress. This is an experience that I will love to be a part of, I think it will help me understand the world in a broader way, learning from new cultures and people along the way. In this trip I seek to live new experiences that allow me to discover new places and people, as well as learn many other things that will allow me to grow as a person.
