## Student Letter

My name is Daniela, I'm 14 years old and I'm from Spain. I consider myself very sociable, I love meeting new people. I am also responsible, organized, and used to being independent.

I play in a basketball team; I have three training sessions a week and a match on Sundays. Truly, I like playing basketball so much and doing sports, but I also like artistic things like photography or cinema. I also love music, and my favorite artists are Adele, Ariana Grande, and SZA.

My future plans are very clear. I want to be an actress and I've always wanted to be one, but it's not a guaranteed career so I looked for a career based on my tastes that could have many possibilities and I found journalism because I love writing, so it is related. Also, I thought that I'll study my degree but while I study it, I will do auditions or I'll try to get on a film or something and, finally, live my dream.

Well, and now I would like to tell you why I want to be an exchange student. First, it would be to improve my English. Of course, also because I love the idea of traveling to the USA and getting to know its culture and customs, and to have this awesome experience.
