Student Letter

My name is Julia. I'm 15 years old, and I'm from Spain. I consider myself a very kind person, and I love to help people. When I'm older I want to be a surgeon to save lives and save people from losing the ones they love.

I enjoy going out with my friends on the weekends to dinner or to get ice cream. I also enjoy drawing, reading, and playing basketball. When I was little my grandad taught me how to draw, and we loved painting together. I also enjoy listening to music. My favorite artists are Adele, Ariana Grande, Billie Eilish, Taylor Swift, ABBA, Cardi B., and H.E.R.

My favorite subjects in school are History, Biology, and English. I enjoy learning things and events from the past, and it has always come easily to me. I also think learning about our body and anatomy is very interesting.

The reason I want to be an exchange student is that I want to meet new people that will be a part of my life forever, discover new places and cultures, and obviously improve my level of English too. My dream for a couple of years has been to go to the USA as an exchange student, and I'm really excited that it's becoming real. I'm also excited to tell you things about my life in Spain and our culture and for you to tell me about yours.
