## Student Letter

Hello, my name is José, I am 14 years old, I am the second one from a family of 5 siblings. I have 3 more brothers and 1 little sister. My mother has 2 brothers and 2 sisters, my father has one sister and one brother and I also have quite a few cousins. I can say we are a large family in which we all get along well. I really like to play with young children and I also take care of my cousin when their parents are at church.

My favourite sports are soccer and tennis. I play soccer Mondays and Thursdays at school and I play tennis during the weekend at the club in which my family loves spending the weekends. I usually play tennis tournaments also at the club and have quite good friends there. When I was 11 years old, my team and I finished third in the Spanish junior tennis championship.

I also like hanging out with my friends from school and apart from sports and being with my friends. I like watching movies at the cinema and sometimes playing video games when my parents let me do so. I like to take care of young children and I take care of my cousin Mario when my uncles are at church.

I spend all August with my family, cousins, and grandparents at the coast in the North West of Spain. In summer I practice watersports and usually go to the beach.

I expect my year in the U.S.A to be an unforgettable year, to know more about your culture, way of life and of course, improve my English level
