Student Letter

My name is Maria. I live on an island called Mallorca. Here we have lots of beautiful beaches with crystal clear water. I consider myself responsible, open-minded, and optimistic. I always try to be happy and make the people around me happy too. I am also very funny and applied at school homework. I like to travel, play basketball, and hang out with my friends and family. I also love fashion and animals. On the weekends, I usually go out with my friends. We usually go shopping, to the bowling alley, or to sleep at the house of one of them. In school my favorite subjects are all the science areas like math, biology, or physical science.

I would like to be an exchange student because I find that it is an experience that everyone who has the opportunity would have to live, it is a way to mature and grow personally that nobody would have to reject. It is also a way to learn another language and that is also very important. I can contribute all my culture and customs to this exchange, but above all my way of being and thinking, I can bring them a lot of happiness just like you do me.
