Student Letter

My name is Aurora. I am 14 years old and I'm from Spain. I live with my parents, my little brother, and my twin sister. I love doing sports, I love most of them, but my favorite is basketball. I play on the basketball team in my town. Apart from basketball, I also really like soccer and tennis.

My favorite subjects in school are physical education because I love sports, and geography, because I find it very interesting. My least favorite and the subject I find the most difficult is mathematics.

I want to go on an exchange to the United States because I would like to live new experiences, learn new things from there such as their traditions, their culture, their way of life, etc. Above all, I want to go and have a great time, enjoy as much as possible everything I can and of course learn and improve my level of English much more.

I also have a lot of desire to meet new people, make new friends, improve myself by overcoming my fears because I know that it will be a little difficult at first but I will try to adapt as quickly as I can so everything goes much better and I can learn much more. I am very grateful for being given this opportunity and I can't wait to live as an exchange student in the United States.
