## Student Letter

My name is Laia, I'm 14 years old, and I'm from Spain. I would describe myself as hardworking, open-minded, and sociable. In the future, I would like to go to school for architecture, interior design, or psychology.

I live with my mum, my dad, and my little brother. I really enjoy spending time with my family. We often go to my grandparent's house and have lunch with the whole family together.

One thing that I like is hanging out with my friends. I also enjoy swimming, I've been taking swimming lessons since I was very little. I also like to practice running or aerobics, and I really enjoy hiking. Besides that, I love playing the ukulele, reading, listening to good music, cinema, cooking, traveling, and I'm learning to play the guitar and the piano too.

The reason why I want to come to the US is to spend some time out of my comfort zone doing things I have never done before. I know this is something that will help me a lot, not only to get better at my English but also to know more about the American culture by visiting new places, celebrating important events, or eating traditional foods. I also hope to share the knowledge and experiences that I have of my own culture with others as well.
