Student Letter

My name is Martina. I am 14 years old, and I'm from Spain. I live with my parents and my little brother in a house with a little garden and swimming pool.

My father has always told me about his experiences in the United States while he studied there for university and I always had the curiosity to live them by myself. New family, new country, new people, different culture... That is why I'm so excited to live this experience.

I hope to provide you with a vision of my country and my culture, such as typical Spanish food. One of my hobbies is cooking, in these months I am learning from my parents' typical recipes so that I can share them with you.

My favorite subjects in school are maths, chemistry, and sports. In the future, I would like to study Medicine and become a doctor.

I play basketball in my school's sports club. I know that in the US it is a very practiced sport and I hope I can play there and improve my skills.

Like almost any girl, I also like to go shopping, meet my friends and go to the cinema. I enjoy watching some US TV programs like Stranger Things and Friends.
