Student Letter

My name is Luz, I'm 15 years old, and I'm from Spain.

I think I am a good person, I try to as much as posible be fair with the people who deserve it. I am hard working too, no matter what I will always give my best even if it doesnt always go as expected. I am easy going. I believe that I am empathetic and positive. I love listening to music, my favourite genres of music are pop and indie, although I listen to all types of music. I also like to read a lot, I normally read fantasy. However, I love romance and science-fiction just as much.

I expect that the exchange will make me more mature and independent. I think meeting new people and seeing another culture and lifestyle will make me grow up as a person and be more open to new and different ideas. I am very interested in the USA's culture and way of living so I would want to learn more about it for it and a perfect experience I would love to try, and I think this is the reason that made me thought that if a family would host me it would give me a chance of living all this new experiences.

Thank you a lot for opening the doors of your home for me, I am very thankful for this, because I know this isn't a easy decision to make and not everyone could do it. I promise I will contribute to the family as you are doing for me.
