## Student Letter

My name is Noah. I'm 15 years old, and I'm from France.

I'm a pupil in a High school. I live with my parents, Aurelie and Sébastien, and my little brother Gaspard. I have a puppy since one month named Sango. It's a Samoyede.

I have two big passions : sport and listen to music. I have boxing for three years, and I played tennis for nine years. I like listening to music like American rap and RNB music. I love travelling with my family. We went to thailand, Guadeloupe, England, Spain, Greece... With my school, I had the chance to go to San Francisco.

Also, I like to eat good things In France, what I like to eat the most is cheese. I like to cook French crepes I would be delighted to prepare some for you during my stay.

My main qualities are : athletic, open-minded, listening to people. On the other hand, I am dreamy and I find it difficult to control my emotions.

I would like to go to study in USA next year. It would be a real opportunity for me. I would like to discover American culture which fascinate me, and I would like to speak fluent English.

I know that the first few weeks will be difficult but I am volunteer and I will do everything to integrate into my new family and my new school.
