Student Letter

My name is Ebba, I am 15 years old and I'm from Germany. My friends would describe me as a self-confident, musical, sporty, open-minded, funny, spontaneous and creative person. My sister describes me as an empathic and also sensitive person. I am independent and optimistic and I always try to make the best out of every situation. My family consists of my mum, my dad and my two older siblings. Both of my parents raised me to be a creative, loving, honest and responsible person.

In my free time I love to do sports. If I have the chance to join a volleyball team at my new high school, I would love to take this opportunity. Furthermore, I am a committed musician as well. I have played the trumpet in my school orchestra for 5 years now. We also do concerts and take part in competitions, we even played in one of the biggest cities a few years ago. I also love to go out and spend time with my friends. I am a vegetarian for 3 years now because I don't support the abuse of animals.

You'll probably ask yourself why I want to be an exchange student. I think it's a great opportunity to meet new people, learning about other cultures and improve my English. I really enjoy my life in Germany and I'm pretty sure that I will miss my family and my friends a lot but I know that this one-year experience with you will be more than worth leaving my home. I am excited to explore different cultures and share mine to find similarities and differences.
