PROGRAM

Arrival:

August 2022

Age on Arrival:

15

Duration:

Academic Year

Student ID:

AY22ES26-11

Allergies/Special Diet:

No / No

Religion:

CATHOLIC

Student Letter

I am Ignacio, but everybody calls me Ike, I am 15 years old, and I live in Spain. I would like to become a foreign exchange student because I am eager to know new people, to learn about a new culture, to improve my spoken and written English, to become more confident and independent.

I am open-minded, social and sporty boy, I am kind and honest and I can adapt myself to new cultures, uses and customs.

I have a lot of hobbies and interest: canoeing, soccer, paddle, ping pong, basket, badminton, swimming, tennis and every sport I play.

I have a nice family, I live with my family: my mother, my father and my older brother which I get along well. My father works as pharmacist and helps me to study chemistry and my mother works as a civil servant. My brother was living in USA two years ago as foreign exchange student with BFF and his experience was amazing and fascinating. America has always fascinated me, both for the fantastic places that there are, and for how life is structure, but precisely the culture in all its forms.

I love pets and I would like to have one dog when I will be older, but I know the responsibility that it takes. Now, we don't have any pet because my father is allergic.

I have always wanted to live an experience I will live abroad. I think this experience does not help me only with my English but also to grow as a person.
