## Student Letter

My name is Guillermo, I am 14, and I am from Spain. In my town, we live near a mountain and we live less than an hour from the beach. My father is a lawyer and my mother is a teacher in a public school. I have one younger brother who is twelve years old. I get along best with my father because we do house chores and play paddleball together. My grandparents also live nearby.

When I am with my friends, we like to go out to eat and play video games. My favorite video game to play is FIFA soccer. On the weekend, I watch soccer matches, swim, and hang out with my friends. On some weekends, I travel with my parents to the city or we go to the beach or cinema. When I am older, I want to be a lawyer like my dad because I like helping people.

I am looking forward to this experience because I watch a lot of TV series and movies from the USA. I watch the TV show Friends and Game of Thrones, and I love the movie The Goonies. I also love sports. In Spain, I practice soccer, tennis, and handball. When I travel to America, I want to practice the typical sports of the United States, such as baseball, American football, and basketball. I also want to try American food such as hamburgers, American sodas, and pancakes. I am also excited to make American friends. I look forward to living with an American family, learning about American culture, and sharing my culture with you!
