Student Letter

Hello, my name is Nuria, I'm 17 years old, and I'm from Spain. I am a fun, friendly girl, very open-minded and sporty; I really like sports in general, both watching and practicing them. I have practiced karate and artistic gymnastics for most of my life, although I have also practiced boxing. I really like doing activities outdoors and in nature because I am very daring and I have a great time.

Another of the things I like to do is more related to art, I really like listening to music, I listen to many different genres, depending on my mood.

And finally, something that fascinates me is acting, generally in the cinema but also in the theater. I love watching plays, movies, series, interviews, film documentaries ...

For me, going to study in the United States is a dream that I have had from a very young age. I have always wanted to master English as a second language and to be able to study in an American High School and as I grew older I had more desire to know the culture, the landscapes, the gastronomy, the people, and to be able to live for a time in a place far away from home.

I am very excited and I really want to meet my host family, I hope I can learn as much from you as you from me, to be able to help you and have fun together.
