Student Letter

My name is Miguel and I am 15 years old. I live in Spain with my family, my father, my mother and my two sisters, both older than me, I am the youngest. I was born in China, and so were my sisters, and my parents adopted me when I was 18 months old and I've lived in Spain since then.

I like to eat a variety of foods and I never say no to a good plate of pasta, pizza, rice, fish or meat and of course a good barbecue, although I also like vegetables.

I like listening to music and hanging out with my Friends, I also spend my free time playing videogames with friends. But a hobby in which I spend a lot of time on is piano, I like it and I want to improve my ability, technique and repertoire of musical pieces, now I focus on classical music.

When I grow up I would like to be an architect, my grades are good and my favorite subjects are math, physics, drawing and history, the one I like the least is Spanish.

I want to go to the USA to learn the language well and know the American way of life, also because I would like to go to a big high school like the ones in the movies, my current school is not very big. My two sisters went to the United States in 10th grade and they said that their experience was wonderful and they were very impressed by how cool the high school was.
