Student Letter

My name is Sebastia, I am 14 years old, and I am from Spain. I am very extroverted, sympathetic, and funny. I love soccer. Every weekend I play a soccer match with my team. When I am with my friends, I love going to the mountains with our bikes and play soccer. Sometimes we go shopping and watch a movie at the cinema. My favorite subjects at school are mathematics, PE, biology, and English. In the future I would like to study a degree of engineering or biology.

The USA always called my attention because of the culture. I think it's a great opportunity to have the best experience ever in my young life, also a big opportunity to learn and improve the English language.

We are a family of 5 people, so I have 2 brothers. My older brother is 16 years old, my younger brother is 13 years old.

I like to share hobbies with them, like sports, a healthy lifestyle, and being a good student.

I think that this experience will be very special for me, because it's going to be the first time I leave my house and my family for a long time. Other things that I'm also looking forward to in the US are sports. I'm open to learning any type of American sports like football, baseball, and basketball.
