Student Letter

Hi, I'm Oriol and I'm 15 years old, and I am from Spain.

In this letter I will tell you about me and my family. My parents are separated so I live separately with my mom and dad. I like to be with both families equally and we share many things together like painting, singing, dancing, etc.

I love reading books, as do all my relatives, and when I have finished a book I try to tell them about the book so that I can find out if I have heard about it.

About my future, I would like to dedicate myself to what I like the most, acting, and I hope to be able to make a living from it. I like theater very much because since I was little I have acted in front of people, or I have seen plays. And I have found them interesting, moving and very engaging. I love the stories they tell and I would love to be able to act in a play. I like a few sports like swimming, walking in the mountains, skiing, etc.

As for my friends, I also get along very well and we like to share things together. Like going to the beach or eating together...

I would like to go to the United States, since I have always liked learning about American culture and also being able to learn about their customs and traditions gives me the courage to go to this country. I also want to go, because it is a great opportunity to overcome my shyness to speak the language.
