Student Letter

My name is Jaime. I'm a 15 year old boy from Spain.

I like sports a lot. Here in Spain I like to play soccer and some basketball and tennis, but I like to watch a lot of them on TV. I practice futsal (indoor soccer), which is played in a court of similar size to a basketball one and played by two teams of 5 players. I like playing this one more than the "standard" one, but I like to kick any ball! I play in my school club, and I also coach the younger kids there.

I also like to travel. I have been to many places in Europe. Whenever we can, my parents and sister plan a trip for a few days and we visit different cities, in Spain or in Europe. Outside Europe I haven't traveled anywhere, so I really like to see something as much as possible of the United States.

In my free time I like to go out with my friends, watch TV and, from time to time, play PlayStation. The games I like the most, although I don't play as much as I used to when I was younger, are Fortnite, FIFA and NBA2K.

Taking the decision to go to the USA is the most important decision I have ever made in my life and I hope it will be very positive and will help me in the future to face my professional future but, without a doubt, also my personal future. I'm not sure of what I want to be in the future right now: if I had to decide what university studies I would choose, probably something related to business or marketing.
