## Student Letter

Hello, my name is Lenny. I am sixteen years old. I am French. My parents are separated, I live with my mom and I go at my father's house some weekends. I have one brother and one sister, they live at my father's place.

I love basketball. I used to play football but I stopped when I was twelve to play basketball. Now its been four years since i started basketball, and I hope to become a professional basketball player, my dream is to go in NBA.

I really like music. I often listen to music on my way to school and in my free time. I listen to a lot of music styles but I prefer Rnb and hip hop. I like to play video games and I like to go out with friends during the weekends.

I've never been to USA. I want to discover new cultures, to be able to speak english fluently because this is very important to speak english now, and to live a year like an american student. I also want to discover american basketball because the basketball is not really the same in Europe and to learn and progres and reach my goal of being one day a professional basketball player. I hope that after having lived a chance like this, I will have matured a lot to better succeed in my life.
