## Student Letter

My name is Solange, I am a 16 year old girl and I live in France. First, to describe myself for you to get to know me, I would say that I am an understanding person, I enjoy listening to others whenever they need. I am also creative, I love dancing and I do modern-jazz dance for about 10 years now. I also love painting especially with watercolor even though I am not really good at drawing. Plus, I love playing the piano, I used to have a teacher for 7 years and now I play by myself and for my friends, I have a list with like 60 piano pieces I would like to play.

I am lucky because I have a close-knit family. My dad is a vet and he now works in an animal medicine business. He is passionate about cinema, plays and musical, he often brings us to festival of plays especially during summer and my sister and I are loving it. He has a really good sense of humor and always do puns that we take time to understand. My mom is also a vet she is specialize in horses and alternative medicine. When we are sick, she always makes us some sort of disgusting potions which actually work really well.

I want to go to the United States because I love discovering new things, new cultures, new foods, new people... Plus, I really want to improve my English. Also, it is one of my dreams and now that it is becoming real I just can't wait for it to happen.
