Student Letter

My name is Constance. I'm 16 years old, and I'm from France. I'm dynamic, curious, open-minded and open to the world. I love my family and animals. I go to the gym. I chose to do this experience to discover a new culture, to become bilingual, to share new activities with friends. I also would like to meet new people.

I hope to be able to really share moments to know your culture and discover your country. I take advantage of my weekends to share time with my family and friends. I share my hobbies with all of them: sports in the gym, walking, shopping, watching TV series, shopping, swimming. I also enjoy spending time with my grandparents who live in different regions: on my dad's side, they have their house on the Mediterranean coast whereas on my mom's side in the mountains and in Paris. So I like this diversity and the taste of traveling.

If I don't have school, I wake up late. Frequently my parents prepare the meal but I like cooking desserts. My father loves to cook and gave me the taste of sharing at the table. After I tidy my bedroom or I go out with my friends. Around 7 p.m. I have dinner with my family. We take the opportunity to talk about our day and social events. We do activities together like watching a movie or playing together. I do spend time in the bathroom because it relaxes me and I like to get ready.
