## Student Letter

My name is Diletta, I am 17 years old, and I live in Italy. My family is made up of four people, me, my sister, my father, and my mother. I love animals very much. I am sporty, I like to play football, skiing, and horse riding. I have also travelled a lot. I studied recorder and piano and, in my free time, I always listen to a lot of music. My parents have always taught me that freedom and respect for others are the greatest value to possess. I have always been driven to follow my dreams, to be independent, to make my own choices.

My father gave me a passion for animals and for the countryside. My mother love for books and for ancient and modern civilizations, so I always accompany her in her adventures of travel.

In the future I would like to study medicine at university and treat heart diseases in particular. I know it's a very long and difficult career to pursue, but I hope to reach my dreams sooner or later. I am very excited for this experience, I think it is very important for my future. I'm really lucky because not everyone can do it. I know it will open my mind, and above all, it will help me to grow up.
