## Student Letter

My name is Lucia, for friends "Lucy", I am 16 years old and I'm from Italy. I can't believe I'm finally writing this letter! These words will finally allow me to find wonderful people like you who will help me achieve my dream: improve my English, learn about new cultures and ethnicities, make new friends, visit cities!

My father is 42 years old and he is a metrology technician. My mother is 43 years old and is an electronic technician. I also have a 12-year-old younger sister, who is also in love with America just like me. For me my family is everything. I have a beautiful bond with my parents and my sister. Our bond is based on respect and trust.

My parents have always pushed me to follow my dreams and make my own choices, which I hope to always be able to do in the future. I attend linguistic high school because since I was little I have loved languages, especially English. When I grow up I would like to become a doctor or a psychologist. I have always cultivated a passion for medicine and psychology.

I love watching football and basketball games, I can't wait to see one in the United States. I love listening to music, my favorite genre is pop. I love reading books, especially classics and novels. My favorite books are Pride and Prejudice and Wuthering Heights. I like watching movies and TV series. I love photography, I like taking pictures of landscapes and people.
