Student Letter

I am Anika, a 15 years old girl from Bangladesh. I belong to a tight-knit family of four that includes my mother, father, younger sister, and myself. After long hours of work and study during the day, we make sure to spend the evening together.

I have a zeal for badminton; I love listening to music and watching Bangla dramas on YouTube at leisure. Often, I read my sister's book on short stories on the Internet.

I have numerous friends in my school and neighborhood. Starting from playing with colors during the Science Fair to running after one another in the playground; playing Antrakshi (a musical game) during class breaks to laughing with food stuffed in the mouth during tiffin hours, the number of such unforgettable memories are infinite.

I have a fascination for science; I look forward to pursuing my career in science.

Participating in this program will help me acquire leadership skills, enhance communication skills, being empathetic and adaptable. The variety of community services can play a key role in developing my personality and morality. I hope to make use of all these achievements to bring about a change in my community and have a greater outlook on life. I hope to boost up my self-confidence, cultural awareness via this exchange program. Representing one's country and culture is of great pride and honour that I would love to experience.
