Student Letter

My Name is Neele I am from germany and I am currently 14 years of age. I am really excited to go to the USA. I am looking forward to experience the American way to live in school, home etc. Maybe you are interested in the german culture too. I hope to find good friends and a loving host family that is interested to stay in touch even when I am back in germany. Of course I want to improve my english. Having me as your exchange student would benefit you because I am a really open minded and nice person. I may be a little shy at first but if I get to know people better we could be the best friends. In germany I live in a rather suburban area. I live in a house with my Mom, Dad and a cat. My parents are really nice people that support me in school a lot. My dad in math and physics and my mom in german and latin. I am really happy to have them in my live. They show me every day that they are proud of me. My cat is of course the second most important thing in my live. Even tho she bites and scratches me a lot I still love her very much. Lastly I also wanna say some more things about me. I have been playing the Viola for about nine years now. I love playing that instrument it just gives me so much joy. I am part of a pretty successful youth-orchestra and it just makes me happy that I found something that I can 100% identify myself with.
