Student Letter

I am Elena and I am 15 and I am from Italy. I am a smart, active and friendly girl. My family is composed by my father, my mother, my sister and my brother. We also have a small dog called Barney, a french bulldog.

I attend the third year of scientific high school and I very love maths and chemistry, but it is a quite difficult school so I have to study a lot and I have not a lot of free time. Anyway in my leisure time I go to a school of dancing and I spend some times with my friends. In the past years I was used to play in gym competitions, but i gave up two years ago.

I decided to become an exchange student because I love travelling. With my family I visited on holydays France, UK, Spain, Germany, Thailand and I always loved those places. Two years ago we also went to Dubai and there I took some incredible pictures of the skyscrapers. There I realized I love photographs, one of my favourite hobbies and now I take pictures of every place I visit even if in the two last years, due to the pandemic problems, we haven't travelled so much. I am sure that living in the US in a new family, attending a new school will be an amazing experience even if I think I will miss my family. Anyway I know i will be able to see my family and my italian friends with online calls. It will be great to improve my English and i am very excited to know new friends and also a new family to live with.
