Student Letter

My name is Stella, I was born in Brazil and I live here with my mom, dad, and my brother who is two years younger than me. We get along very well. I also enjoy spending a lot of time with my friends, especially when we travel together mostly to the beach. I have family in other places of Brazil, and also a beach house, where we spend most of our vacation and holidays. I study in a private school. I've been studying there for 5 years now, and even though it's challenging, I enjoy it. We have a lot of events throughout the year where the school encourages students to participate and work to help others. I played volleyball for 3 1/2 years during middle school. I still sometimes play just for fun. I also did dance for a very long time.

During vacation, I normally travel with my family and later with my friends to a Sports Summer Camp, where we spend two weeks with no cell phone interacting with each other while doing a lot of interesting activities. Normally, I am a very easy going person, and I really enjoy going out with my friends. During the weekends we see each other all the time, we go out to lunch or to play beach tennis together.

Since I was a little girl my mom always talked to me about her experience when she was an exchange student, how she thought it was a life-changing experience and how much she enjoyed it. I chose to do the same and hopefully, it will be as much of a memorable experience for me as it was for her. Hope to meet you soon!
