Student Letter

Hi! I'm Gael!! I am 15 years old and I am from Spain. I am a very quiet person and I like to spend time with my friends. I am often in my house just chatting, listening to music or playing with the Xbox, to ping pong and that kind of thing. In my house I live with my parents,, and my 2 brothers. I also have friends outside my neighborhood and we usually go out on weekends to go for a walk. I spend a lot of time with my family, we like to go out to the countryside to do nature activities and we have also traveled in Europe, we have been to France, Paris, England, Portugal, Belgium.

About my hobbies I could tell you that I have been playing for many years in a European soccer team of the Spanish Federation. I also like racket sports very much, especially paddle tennis, which I have played for several years, and we spend a lot of time as a family playing Ping Pong competitions. We have a lot of fun, especially if I win! For several years I have played the guitar at school, classical guitar, although now I don't practice it too much. I really like the martial art Hapkido. I have practiced horseback riding since I was a kid and although it is not something I do often I love horses and practically all animals.

I am learning to cook and there are already some dishes that I can do well so I could teach you some of the traditional Spanish food. In general I am a very calm person and I am sure that I will be able to adapt myself easily to a new family.
