## PROGRAM

**Arrival:**

August 2022

**Age on Arrival:**

15

**Duration:**

Academic Year

**Student ID:**

AY22ES39-11

**Allergies/Special Diet:**

No / No

**Religion:**

Catholic

## Student Letter

My name is Pere, I'm fifteen years old. I am from Spain. I am the youngest with my twin brother Miquel. My dad is a doctor and my mum is an economist, both work in healthcare helping people, they work very hard to hold this family. Personally, I consider myself a good student, I try my best and I can work independently. I'm an organized and responsible person. I love to do sports regularly. I am involved in a water polo team, and I love training with my friends. All my family is sporty. Usually we go to local charity events where one part of the money goes to associations. I love helping people, when my grandmother comes to my house I enjoy her traditional Spanish dishes and I try to learn how to cook them.

I love attending classes and having fun with my friends. I am a very organized person. I combine my academic life with my sporty life. In the future I would like to work in a job related to math and chemistry. I am very positive, very competitive and helpful.

One of the main reasons why I have made the decision to become part of this project to spend a year in the US, was due to the stunning experience my older brother had four years ago, in Arizona.

I'm looking forward to spending a school year in the USA and at the same time involving myself in the culture and improving my English while living with an American family. I believe I will integrate as a positive part of the family.
