Student Letter

My name is Javier. I will be 15 years old. We are a family of five. My mother has got seven sisters, I have a lot of cousins of all ages. We usually see each other at the weekends, and we like to have lunch together. My father's family lives far away from us, but we usually spend our summer there near them.

I have two brothers and I am the youngest one. We all love soccer and surfing. We go surfing whenever we go to the coast. It is an exciting sport. We play soccer in a team. We usually play a match at the weekends.

I would say I am a good student because I am always eager to learn. I have received several diplomas for outstanding grades, and I won a national literature contest.

I am used to do some small chores like mowing, taking the garbage out and laying the table. I love eating, I like vegetables, pizza and pasta. Also, I enjoy Mexican food like tacos and nachos and I also love hamburgers. I think I like all types of food.

Also, we love traveling around the world. I have been to Chicago and Miami. They were exciting trips for me and I am looking forwards to knowing U.S. deeper. My brothers and I spent time in a camp in the north of Germany. We had the opportunity to both learn German and meet students from different countries. It was a rewarding experience for me. Meeting people from other cultures helped me broaden my mind and see the world from points of view I could have never imagined. See you soon!
