Student Letter

My name is Carla, I'm 15 years old and I'm from Spain. I expect from my exchange year lot of things. First of all, the most important is that I want to make hundreds of new friends, shopping in the big shopping malls and also I want to learn about the American culture and its celebrations like Thanksgiving and Halloween...

I'm very excited because I want to try the typical American's desserts like waffles and pancakes with chocolate and the strawberry shake.

Since I was young, my favourite subject was English. I think that my exchange year is going to be one of my best years of my life because I will have lot of fun, I'm going to live a new experience of living without anyone of my family in another country and with another language. This year will help me in the future because I want to study Translation and Interpretation for being an English teacher in the future.

One of the things I'm more excited is for practicing new sports. I want to become a cheerleader because I remember once in school I wanted to form a cheerleading team but my teacher didn't let me so I want to live that experience.

I think that one of my favourite free time activities is listening to music, I like Spanish music but I really like English music. And I am really in love with Justin Bieber. Also I like also Beyonce, Rihanna, Drake, Lady Gaga ...

I think I will adapt easily to my exchange , because I'm a very flexible girl.
