## Student Letter

My name is Ana and I will be 16. I live with my mother, and I go to my father's home on holiday. I've got two brothers and I'm the middle child and the only girl, but we're quite close. My mother loves animals, so I have a dog and two cats.

Spending time with my family and my friends are the moments that I enjoy the most. With my Mom, I cook (she is a very creative cooker), we go running, and muscle building, or go skiing. With my dad I play board games, soccer, handball, volleyball, he also learn to me how to do bodyboard, and we are always singing.

I always want to travel, to discover the world. And I remember that when I was eight, I had a friend who had her birthday on the topic of the US. I found it so cool. And that from that moment on, that the US has started to make me dream.

Later I want to go in a political science college and I think this experience will help me for go there. But it's also because your country make me dream, and I really want to know what it's look like to live for one year like an American girl. I want to discover the culture of America, how people live there, see the amazing landscapes.

I want also thank you, for being volunteer to welcome young people like me and make our dreams possible.

Looking forward to meeting you and having this wonderful adventure with you!
