Student Letter

My name is Gabin, I'm fifteen and I am from France. At school I study many languages, and history is my favorite subject. I play golf during weekends with my dad and I love it although I'm not very good yet because I've just started a year ago. I also have been playing tennis for 6 years but I stopped at the beginning of this year because I don't really have time anymore but I like playing for fun.

During my free time I enjoy baking. Almost every weekend I make cakes for my family and I would love to share that with my host family and to make them discover French pastries. I like fashion and being well dressed. I enjoy listening music, all kind of music. I socialize quite easy and like to have good time with my friends, go shopping or go to the movies

Thanks to my parents we, I and my sisters, have been traveling quite frequently ever since we were children. I therefore love traveling. I travelled with my family across many countries. Last but not least, to be honest, unfortunately I don't really enjoy animals, in particular dogs because I'm scared of them due to a bad experience when I was a kid.

Next year I would like to study in the USA to improve my English, and most important, discover a new culture, new peoples, another way of life.
