Student Letter

My name is Nicolas. I am 16, I live in France. I am the last of a family of 4 : I have a twin, a big brother who is 5 years older than me and a sister who is 8 years older than me. I love them so much.

I don't really know how to describe myself ... So I asked my brother and my best friends to do it for me. So according to them : I am positive and joyful, I also have an inquiring mind, I like learning by myself all sorts of things about subjects I'm interested in.

I am serious, respectful of the rules and hardworking. I have a flexible character, I know how to adapt quickly to new situations and I quickly make friends and I am faithful in friendship.

My school is pretty good and I have good friends. I am also involved in the association to organize some sports or fun projects like handball competitions, swimming, basketball, soccer, athletics. I make the most of my free time to see my friends and practice sports. I practice by myself kiteboarding, boxe, and wakeboarding. And in my high school, handball and badminton, athletics too.

I would like to discover the life of an American high school student, your American culture but also to meet new people, to learn and practice new sports, to study new subjects and to improve my English as much as possible.
