Student Letter

My name is Léon. I am a sixteen-year-old and I am from France. I live with my parents, and I have three older brothers.

I like to swim for fun, but I don't compete. For 8 years now, I have been a scout. Scouting allows me to organize outdoor activities with my friends. Every year we organize a summer camp and we have to take care of finding a place, making the shopping list, preparing the meals and organizing the activities. I am interested in space and especially in rockets and I like to visit museums, usually with my parents. I have several groups of friends with whom I like to go out for lunch, to the movies, to ride my bike, to walk around town or just to talk. Finally, I really enjoy cooking from time to time, both dishes and cakes. I will be happy to share some of my recipes.

By sharing your daily life, I really hope to discover your culture, but also to share mine with you. I also hope to meet new people. This will of course allow me to improve my English level.

I would like to actively participate in the life of the school, by doing sports. For example, I would like to discover baseball, or join one or more of the clubs in the high school. Finally, I would like to discover what exchange students call "the high school spirit". I would also like to attend the prom. All of these events are familiar to foreign high school students from movies. I would like to experience them in real life.
