Student Letter

I'm Taeyoung, I am 17 years old and I live in Korea. I live with my parents, grandmother, and a cat in Korea. I usually spend the weekend talking with my family in the living room and sometimes I watch movies while eating snacks. I go to school on weekdays. I spend time playing badminton with my friends or practicing singing for the band club. I, in charge of the student council at school, hold meetings and guide students for lunch order and dress tests. I'm feeling the weight of the golden badge on my chest these days, but thanks to this badge, I'm happy to have a very fruitful and active school life. At the beginning of the semester, cherry blossoms bloom beautifully at school, and there's a cherry blossom photo exhibition. Last year, the picture I took with my classmates came in third, but this time, I'm very excited to take pictures with my new friends. My hobby is skiing, singing, and playing instruments. For skiing, I wait for winter every year. And I like to sing and play musical instruments, so I'm a vocalist of the band at school. So I always enjoy club time when I can practice singing with my friends. I've been to Virginia in 2020, and I remember the clouds I saw then. There are many clouds in the form of spreading and flowing clouds in Korea, but the clouds in Virginia were so clearly clustered. The sky reminiscent of the Toy Story I saw when I was young is still vivid, so if I can go to the U.S. again, I want to see the sky as much as I want and take a picture.
