Student Letter

My name is Sukrita, you can call me "Bungkee". I'm 17 years old student from Thailand. I consider myself to be a cheerful, helpful, funny, and optimistic person. Because I'm friendly and kind, I get along well with others. Being myself is something I really enjoy because it allows me to express myself freely and confidently.

During my free time I enjoy watching Youtube especially an exchange student's vlogs. I can't imagine being there and taking the yellow school bus to school; that would be amazing. As I previously stated, I had watched a lot of vloggers. Maybe I'll start my own YouTube channel to record my year as an exchange student. Other thing I enjoy doing are traveling, taking pictures, and baking. I enjoy visiting new places that I have never visited before. My family frequently goes to the beach, amusement park, zoo, eat dinner outside, and shopping during the holidays. Chemistry is my favorite subject because it is the one in which I can do my best. I dislike math because it is difficult for me. I want to be a doctor because I want to help people to recover from illness.

Going abroad has been my dream since I was young. I want to experiment with new things and gain as much experience as possible. Consider becoming a cheerleader. Seafood, fried chicken, and grill meat are my favorite foods. I enjoy eating sweets such as chocolate, brownies, and cakes.
