PROGRAM

Arrival:

August 2022

Age on Arrival:

16

Duration:

Academic Year

Student ID:

AY22TR02-11

Allergies/Special Diet:

No / No

Religion:

Muslim

Student Letter

My name is Tuna. I am a sixteen-year-old student from Turkey. I live with my mother, father, brother and our cat "Pasha". I like playing computer games, doing sports, chatting with my friends and having fun. Friendships are important to me.

I enjoy traveling, discovering new places and tasting new flavors. It's really exciting to participate in the exchange program after two boring and dark years in the pandemic. When I was eight years old, I had the opportunity to visit several cities in Italy during a one-week cultural trip with my family. Even in this short time, the trip was unforgettable. I am happy to have the opportunity to do a similar experience for a longer period of time. I also hope to improve my speaking, understanding and writing skills in English, the common language of the world.

I think that participating in the exchange program will be beneficial for my development. I am sure that spending such a long time away from my family will play an important role in shaping my personality. I think that spending time in a different country with different habits, nature and food will increase my tolerance for the different and unconventional. I think this is a very valuable feature.

I also know that every challenge I will overcome and every success I will achieve will make me stronger and more confident. I think after my exchange, I will return to my family as a different Tuna. Also as a "Tuna" to be proud of.
