## Student Letter

My name is Seniz and I am a 15 year old student from Turkey. I am engrossed with being in nature, it is peaceful and fun to explore especially in spring. When weather gets better and flowers start to grow I make a crown of flowers and take photos of me and loved ones. Like every teenager, I love to go to the movies with my friends and talk about the movie after. I love paint with oil paint - especially landscapes – my biggest influence on art is Bob Ross, I am thrilled by his energy. I love baking! I like trying new cake, pasta, salad and soup recipes. Decorating cakes are also super fun.

Nowadays I love to spend time with my family. Since my brother gets older he gets the jokes that I tell, we can play games and cycle together. My mom plays a vital role in my life. She gives me her energy everyday and my days passes with excitement and happiness. My father plays an important role in my life too. He cares about his family more than anything. His music career influenced me for my music career. I improved my playing techniques on piano, guitar and ukulele with his help. I love listening music and analyzing the lyrics. Same with the books reading and analyzing is conspicuous. I love collecting postcards it reminds me of good memories that I had with my loved ones. My favorite bands are Arctic Monkeys and The Last Shadow Puppets. A day can't end without listening these bands. I started crocheting in the beginning of quarantine and loved the stuff that had come out.
