Student Letter

Hello, I am Mohammed. I am 15 years old, I was born in Morocco. With my family, we do plenty of activities. I really like singing and playing with them, since my dad is a Oud player, and I am at the same time guitarist and pianist. In our spare time we love to play a game called "The Best Singer In The House", I, by the way always end winner. Apart from music, I like sports such as ping-pong, soccer, basketball, etc. I also like to have fun and sometimes speak about political topics and governmental situations with my friends and parents because I think that watching videos about politics and giving personal feedback and opinion about it allows freedom of speed and knowledge of world topics.

When I think about it, one of my biggest plans is to become a professional musician and composer, and the other one is to become a pilot, and I can tell that I am working really hard to achieve these goals and make my dreams come true.

This experience will also give us the opportunity to try out new things and step out of our comfort zone, not to forget about mentioning all the volunteering work and philanthropy that we will man up. Overall, I am so excited and can not wait to dive into this new adventure.
