## PROGRAM

**Arrival:**  
August 2022

**Age on Arrival:**  
16

**Duration:**  
Academic Year

**Student ID:**  
DS22ME01-11

**Allergies/Special Diet:**  
No / No

**Religion:**  
Orthodox Christianity

## Student Letter

My name is Vasilije and I'm 15 years old. I live in a flat with my mother, wlive on the first floor of our building. I also have two aunts in town. My mother and I usually go for walks together. Sometimes we go to restaurants for dinner. I walk my dog every morning and evening and I have to feed him.

I have a lot of friends. We play basketball very often. There is a great court nearby us. We also go for walks. There is a great park in the block next to us. We often sit in that park and talk. We also really like going to gym because we relax there after a long day. During the weekend we go to the cinema.

My plan for my future is to become an engineer, basketball player or scientist. I would like to become a civil engineer like my father. While my father was alive I always liked to look at his projects. I train basketball and would also like to become a basketball player. My favorite player is Kobe Bryant. My third plan is to become a scientist in field related to physics. I am really good at physics and I really like it.

I am very organized and hard working person. I'm also very ambitious and I would work all day if it is necessary to achieve the goal. I'm also a very sociable and caring.

From this experience I would like to gain new friends and I would like to see how it is to live in a much more developed country. I would also like to become more independent. I hope you got a good first impression of me.
