Student Letter

My name is Soyongoo, I am a girl and I am from Mongolia. Most people call me 'Soko' for short. I am 16 years old and currently a junior, and my ambition is to work as an aspiring software engineer for large corporations such as Apple in the United States. I enjoy a wide variety of hobbies and have tried many of them. Playing the piano, art, dancing, and singing have all taught me patience and perseverance in whatever I do. I love to watch movies and television shows with my siblings. When I watch a movie, I'm always completely immersed in it, and I enjoy looking for small things that serve a significant purpose. My all time 3 favorites would be 'Money Heist', 'HIMYM' and 'Stranger Things'.

I believe that anything is possible when I have the right people surrounding me and that has to be my friends. With my friends I enjoy going to the parks, bowling, studying, etc. Also, I love to meet new people and share different interests.

When I visit the United States, I'd like to try cheerleading because I've seen it in a number of American movies and television shows since I was very young. I enjoy singing and dancing. If I get the chance at my new school in the United States, I'd like to join the school band. In addition, I really like acting as well. It pushes me out of my comfort zone. So, if any, I would definitely try out for a part.
